ABOUT ME

As a dynamic software engineer, I bring robust visual design skills, seasoned leadership experience, and an insatiable hunger for knowledge. I prioritize efficiency and scalability, delivering high-quality solutions that anticipate future needs. With a proven track record of innovation, I am the ideal candidate to elevate your team and drive success in software engineering.

EXPERIENCE

Full Stack Software Engineer

Drov Technologies | Oklahoma City, OK | August 2020- present

- Led the adoption of the Angular framework, enhancing overall user experience and system efficiency.
- Drove a 260% increase in company website traffic within one month through effective SEO and web optimization strategies.
- Administered critical AWS services with expertise, ensuring seamless cloud computing operations.
- Implemented design tools to craft advanced wireframes, prototypes, and icons, elevating product design and user experience.
- Engineered and implemented secure Role-based Access endpoints, guaranteeing data integrity and user authentication.
- Authored documentation adhering to official coding standards, aligning development efforts with company goals.

COMMUNITY LEADERSHIP

Board Member, Conduct Chair, & Moderator

Techlahoma | Oklahoma City, OK

- Contributed significantly to budget decisions and long-term organizational vision as a Board Member, directly influencing the success of our initiatives.
- Orchestrated local events while upholding the Techlahoma Code of Conduct, fostering a positive and inclusive community atmosphere for all participants.
- Moderated a thriving online community of 6700+ members, ensuring a safe and respectful digital environment.
